Allowable Subject Matter

1. Claims 1-49 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, Moore (USP 6,573,869) discloses an antenna comprising a spiral-shaped top plate bounded by one or more edges; a shorting element extending from the top plate in the direction of the ground plane for electrically connecting the top plate to the ground plane; and a sidewall extending from a top plate edge in the direction of the ground plane. Moore, however, does not specifically teach that the sidewall is not disposed over the ground plane.

Claims 2-16 are allowed for depending on claim 1.

Regarding claim 49, Moore discloses an antenna comprising a radiating element defining a slot therein, bounded by one or more edges and comprising a first portion and a second portion; a shorting element extending from the radiating element in the direction of the ground plane for electrically connecting the top plate to the ground plane. Moore, however, fails to specifically teach that the first portion overlies the ground plane and the second portion extends beyond the ground plane.

Reasons for indicating allowable subject matter for claims 17-48 were provided in the previous Office action.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
