Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on 13 October 2010.

DETAILED ACTION

The following action is in response to the amendment received October 13, 2010. Claims 9-14, 16, 17, 30-42 and 44-56 are pending.

Oath/Declaration

The reissue oath/declaration in this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. The declaration states that the patent sought to be reissued is wholly or partly inoperative or invalid by reason of claiming more or less than the patentee had a right to claim and identifies the error as claim 51 being too narrow "by requiring the control lever to come into 'contact' with at least one switch." Claim 51 set forth in the Reexamination Certificate recites that "said control lever is movable in at least two directions, and positioned so that movement in a first direction brings said lever into operating contact with said at least one switch". Amended claim 51 now recites that "said control lever is mounted to a support body adjacent to a brake lever and is rotatable about at least two separate axes, independently of the brake lever, and positioned so that rotation about a first axis brings said control lever into operating contact with said at least one switch". Thus, claim 51 still requires that the lever contact the switch, and the error identified in the declaration is apparently not the error relied upon to support the reissue application.

37 CFR 1.175(b)(1) states that "for any error corrected, which is not covered by the oath or declaration submitted under paragraph (a) of this section, applicant must

Art Unit: 3655

submit a supplemental oath or declaration stating that every such error arose without any deceptive intention on the part of the applicant.” Therefore, in accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed. An example of acceptable language to be used in the supplemental oath/declaration to comply with 37 CFR 1.175(b)(1) is as follows:

“Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant.”

Rejection under 35 USC 251

Claims 9-14, 16, 17, 30-42 and 44-56 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

See MPEP § 1414.01.

Remarks

Since the deficiency regarding the identified error in the declaration should have been addressed in the previous Office action, this action is not made final.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney H. Bonck whose telephone number is (571)
