DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of 35 U.S.C. 112(b):
(b) CONCLUSION.—The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the inventor or a joint inventor regards as the invention.

The following is a quotation of 35 U.S.C. 112 (pre-AIA), second paragraph:
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-10 are rejected under 35 U.S.C. 112(b) or 35 U.S.C. 112 (pre-AIA), second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which the inventor or a joint inventor, or for pre-AIA the applicant regards as the invention.

3. The term "tall" in line 1 of claim 1 is a relative term which renders the claim indefinite. The term "tall" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

4. The term "thin" in line 2 of claim 1 is a relative term which renders the claim indefinite. The term "thin" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

5. On lines 4-6 of claim 8, the phrase disclosed in parentheses "()" is considered to be indefinite. The use of parentheses in the claims is limited to reference characters only.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of pre-AIA 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1 and 2 are rejected under pre-AIA 35 U.S.C. 102(b) as being anticipated by Huang et al. (US 6,786,679).

Huang et al. discloses the same spar-type floating structure as claimed, as shown in Figure 4, that is comprised of a floating body with a first portion, defined as Part #13, that is located at the bottom of said body and forms a ballast portion, as described in lines 44-59 of column 3, a second portion, defined as Part #25, that is arranged in the middle of said body and forms a buoyancy portion, as described in lines 60-65 of column 3, a column portion, defined as Part #15, that connects said first and second portions, and a third portion, defined as Part #17, that is arranged at the top of the column portion.

Allowable Subject Matter

8. Claims 3-10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112(b) or 35 U.S.C. 112 (pre-AIA), 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
