

IN THE CLAIMS

Amend the claims as follows.

1. (Currently amended) A wearable accessory comprising:

a base body,

a transparent cover removably connected to the base body, wherein the base body and transparent cover form a receptacle therebetween and also include a hole therethrough, and

an interchangeable decorative insert sized to fit within the receptacle, wherein the accessory is a hair band accessory, wherein the base body and cover are removably connected by a magnetic attachment, wherein the magnetic attachment comprises magnets permanently attached to the base body that are attracted to a ferromagnetic material permanently attached to the transparent cover, wherein the magnets are located only at proximal ends of the base body and transparent cover;

wherein a decorative item comprising a decorative head is removably attached to the cover, wherein the decorative item comprises a shaft that engages the hole.

2-20. (Canceled)
